Ad Budget Breakdown
Budgets as of October 12, 2026. Spending from September 12 to October 11, 2026 (last 30 days).
Prepared by TopServ Digital

Here's where your ad budget is set today and where it was spent over the last 30 days, by platform and by campaign.

1. Your September Budget Change

On September 10, at your request, we lowered your Google Ads budget from $211 to $185 a day so you could raise Local Services Ads from $69 to $250 a week. The two together still come to about the same amount each week. Both are still set that way today, and all the spending in this report happened after the change.

Platform	Before September 10	Since September 10
Google Ads	$211 a day ($1,477 a week)	$185 a day ($1,295 a week)
Local Services Ads	$69 a week	$250 a week
