All Seasons Air Conditioning

Advertising Budget Breakdown
Budgets as of October 8, 2026. Spending from September 8 to October 7, 2026 (last 30 days).
Prepared by TopServ Digital, October 8, 2026

Here's where your advertising budget is set right now and where the money went over the last 30 days, across Google Ads, Local Services Ads, and Facebook and Instagram.

1. Your Budget by Platform

Platform	Daily budget	Monthly budget	Share of monthly budget	Spent, last 30 days
Google Ads (Search and Performance Max)	$185	$5,625	77%	$5,560.70
Local Services Ads	$250 a week	$1,083	15%	See section 4
Facebook and Instagram	$20	$608	8%	$594.97
Total		**$7,316**	**100%**	**$6,155.67**

Monthly budget is the daily budget times 30.4, the average number of days in a month. Google caps what it charges in a month at that amount, and Meta caps each week at seven days' budget, so it works out the same. Local Services Ads runs on a weekly budget, so its monthly figure is $250 a week over 52 weeks, divided by 12.

2. Google Ads by Campaign

Your Google Ads budget is split across six campaigns, all showing in Nassau and Suffolk County. Three of them make up your Mitsubishi co-op plan.

Campaign	What it covers	Daily budget	Monthly budget	Spent, last 30 days	Share of Google spend
Heating and Cooling Service	People searching for AC repair and heating and cooling service	$70	$2,128	$1,922.24	35%
AC Installation and Repair	New AC installs and AC repair	$55	$1,672	$1,751.67	31%
Ductless Mini-Splits (co-op)	Mini-split installs, replacements and pricing	$24	$730	$772.86	14%
Mitsubishi Ductless, Performance Max (co-op)	Mitsubishi ductless ads on Google Search, YouTube, Maps and partner websites	$14	$426	$436.75	8%
All Seasons Name Searches	People looking up All Seasons by name	$13	$395	$399.15	7%
Mitsubishi Searches (co-op)	People searching for Mitsubishi systems and installers	$9	$274	$278.02	5%
Total		**$185**	**$5,625**	**$5,560.70**	**100%**

The three Mitsubishi co-op campaigns together run $47 a day, about $1,430 a month, and spent $1,487.63 over the last 30 days. Google can spend up to twice a campaign's daily budget on a busy day and less on a

slow one, so 30-day spending won't match the budget to the dollar. Over a full calendar month, Google won't charge more than the monthly figure.

3. Facebook and Instagram

One campaign is running on Facebook and Instagram right now. It shows short videos about All Seasons, including a customer testimonial, to people on Long Island, so that when someone needs AC or heating work, All Seasons is a name they already know.

Campaign	Daily budget	Monthly budget	Spent, last 30 days
Long Island Brand Awareness	$20	$608	$594.97

4. Local Services Ads

Local Services Ads are the Google Guaranteed listings at the very top of Google, and you pay per lead instead of per click. In September, at your request, we lowered the Google Ads budget from $211 to $185 a day to make room for raising Local Services Ads from $69 to $250 a week, about $1,083 a month. Local Services Ads runs from your own account, so what it charged over these 30 days shows in your Local Services dashboard rather than in the spending totals above.

If you'd like to move money between platforms or campaigns, just let us know and we'll lay out what each option would look like.
