Gillespie's Heating and Cooling

Full Performance Report
Campaign Launch Through September 10, 2026
Channels: Google Ads and Meta Ads
Prepared by TopServ Digital

This report covers your full advertising history across Google Search and Meta, from the day each channel went live through September 10. Together the two channels have generated 33 leads on $3,370.09 in combined spend, an average cost per lead of $102.12. Google Search is newer and still in its early data-gathering weeks. Meta has been running since July and is currently in an awareness-building phase.

1. Combined Performance at a Glance

Metric	Google Search	Meta	Combined
Impressions	1,698	117,887	119,585
Clicks	87	1,477	1,564
Total Spend	$1,173.22	$2,196.87	$3,370.09
Leads Generated	6	27	33
Average Cost per Lead	**$195.54**	**$81.37**	**$102.12**

2. Google Ads, Search

Two Search campaigns went live August 18: a Branded campaign that protects your business name in search results, and a Non-Branded campaign built around your core services (AC repair, furnace repair, heat pumps, and general HVAC), covering Northern Kentucky and the Cincinnati metro.

Performance to Date

Metric	Result
Impressions	1,698
Clicks	87
Click-Through Rate	5.1%
Average Cost per Click	$13.49
Total Spend	$1,173.22
Leads Generated	6
Average Cost per Lead	**$195.54**

Weekly Trend

Week	Impressions	Clicks	Spend	Leads	Cost/Lead
Aug 18 – 24	504	31	$262.70	1	$262.70
Aug 25 – 31	371	13	$193.27	1	$193.27
Sep 1 – 7	581	31	$514.94	3	$171.65
Sep 8 – 10*	240	12	$202.31	1	$202.31

*Partial week (3 days).

What Changed

- In the campaigns' first week, we concentrated delivery specifically on Google Search results rather than syndicated partner placements, sharpening the accuracy of the reporting going forward.
- Budget was increased in early September to capture more of the available local search volume. The impact shows clearly in the Weekly Trend table above: both impressions and clicks climbed meaningfully from September 1 onward, and cost per lead improved to $171.65 for the week of September 1 to 7, the best week on record so far.

Branded vs. Non-Branded

- **Non-Branded (core services):** carrying effectively all delivery to date, with 87 clicks, 1,696 impressions, and 6 leads.
- **Branded (protecting your business name):** minimal volume so far. Brand-name search volume for a business your size is naturally light, and this campaign is still in an early data-gathering phase. We're keeping it running and giving it more time to build.

3. Meta Ads, Lead Generation and Awareness

Your Meta account has been active since July, running a lead-generation campaign built on Meta's native Instant Form. In late August the account moved into a second phase: a dedicated awareness campaign was added to build reach and recall across the service area.

Performance to Date

Metric	Result
Impressions	117,887
Clicks	1,477
Click-Through Rate	1.25%
Average Cost per Click	$1.49
Total Spend	$2,196.87
Leads Generated	27
Average Cost per Lead	**$81.37**

Monthly Trend

Month	Impressions	Clicks	Spend	Leads	Cost/Lead
July 2026	2,607	78	$74.81	1	$74.81
August 2026	77,002	1,091	$1,625.52	17	$95.62
Sep 1 – 10*	38,278	308	$496.54	9	$55.17

*Partial month (10 days).

What's Running

- **Lead Generation:** a single Instant Form ad set covering Northern Kentucky and Cincinnati, homeowners 30 and older, running at $50 a day since July. It carried the account through its first two months, generating 27 leads at $74.97 each. This campaign is currently paused while the awareness work below takes the lead.
- **Awareness:** live since August 24, running four video ads (three customer testimonials plus a "what to expect" piece) across a broad zip-code radius. This campaign is built to grow reach and frequency rather than capture leads directly, laying groundwork for the next lead-generation push.

4. What's Next

- Sharpen Google ad group targeting using the real search terms now coming in, concentrating budget on your highest-intent searches.
- Keep the Branded Google campaign live and revisit its volume in the coming weeks as brand awareness in the service area builds.
- Continue tracking cost per lead weekly on both channels as the account moves further past its initial ramp period. The trend on Google points in the right direction, and Meta's awareness phase is on track to build the reach it's meant to.
- Plan the right timing to bring Meta lead generation back online alongside the awareness work, so the two phases reinforce each other instead of running one at a time.
