Proud Pops — Electrical Keyword & Search Term Report

Account: 1051843378 (PPC, ex-The Problem Solvers) · **Campaign:** TSD_05.20_Leads_Search_Nonbranded_Electrical (23866999121) **Date range:** 2026-05-14 to 2026-09-13 (full lifetime of the current campaign structure) **Pulled:** 2026-09-14 · **Scope:** Non-branded Electrical keyword research only — every Proud Pops / The Problem Solvers / My Favorite Service Company brand mention has been stripped out of both tables below.

This account also runs a companion Performance Max campaign for Electrical — TSD_05.20_PMax_Electrical (23866982084) — targeting the same demand. Performance Max has no manual keyword targeting and doesn't expose search-term-level data through the API, so it isn't part of this report — everything below comes from the Search campaign, which is the only place explicit keyword targeting exists in this account.

---

1. Best Keywords (current targeting)

All 45 active keywords in this campaign, ranked by conversions. This is everything the account is currently bidding on for Electrical.

Keyword	Match Type	Ad Group	Impr.	Clicks	CTR	Avg. CPC	Cost	Conversions	CPA

2. Top Converting Search Terms (actual queries)

Out of **3,052** distinct non-branded search terms that triggered an ad (**481 clicks, $7,819.27 spent, 53.7 conversions** over the period), these are the top 40 by conversions. "Matched Keyword" is the keyword in the account that the term actually triggered off of — a wide gap between the search term and the matched keyword text is a signal the term deserves its own exact-match keyword rather than riding on a broader match.

Search Term	Matched Keyword (Match Type)	Ad Group	Clicks	Cost	Conversions	CPA
electrician san antonio	electrician san antonio (EXACT)	AG1 Electrician NearMe	19	$673.50	3.0	$224.50
