Facebook and Instagram Retargeting Report
September 25 to October 1, 2026
Prepared by TopServ Digital, October 5, 2026

This report covers your Facebook and Instagram retargeting ads for panel upgrades, the ads that only show to people who have already watched one of your videos.

1. How Retargeting Is Set Up

Your panel upgrade ads run in three steps. Step 1 is the first-touch videos, shown to adults 25 to 65 who live within 50 miles of your shop on South Garnett Road. Anyone who watches at least 3 seconds of one of those videos moves into the step 2 pool and starts seeing a different set of videos about what the upgrade itself looks like. Anyone who watches at least 10 seconds of a step 2 video moves on to step 3, which is about trust: a local, family-owned team that has been doing this for ten years.

Every step uses Facebook's instant form, so people can ask for a free estimate without leaving the app. Anyone who fills it out is taken out of all three steps for 90 days, so nobody keeps getting ads after they've reached out. People stay in the step 2 and step 3 pools for 120 days after they watch.

Step	Who sees it	Pool size (Meta estimate)	Live since
Step 1: first-touch videos	Adults 25 to 65 within 50 miles	Open audience	May 8
Step 2: upgrade videos	Watched 3+ seconds of a step 1 video	65,000 to 76,000	June 22
Step 3: trust videos	Watched 10+ seconds of a step 2 video	12,000 to 14,000	July 10

2. Results, September 25 to October 1

Step	Spend	Impressions	Reach	Leads	Cost per Lead
Step 2 (3-second viewers)	$478.51	11,191	7,536	8	$59.81
Step 3 (10-second viewers)	$120.35	2,184	1,380	4	$30.09
Retargeting total	**$598.86**	**13,375**		**12**	**$49.91**

Reach is the number of accounts that saw the ads. The same person can show up in both steps, so reach isn't added up.

Retargeting brought in 12 leads over the week at $49.91 each. Step 3 brought them in at the lowest cost, 4 leads at $30.09 each, which fits who sees it: people who have already spent time on two of your videos. Each person saw these ads about one and a half times over the week.

3. Results by Ad

Video	Step	Spend	Reach	Leads	Cost per Lead
Done Before Dinner	2	$299.70	4,757	5	$59.94
Mess-Free Upgrade	2	$178.81	3,519	3	$59.60
Who Would You Trust	3	$76.86	936	2	$38.43
Your Family's Safety	3	$43.49	615	2	$21.75
Total		**$598.86**		**12**	**$49.91**

Done Before Dinner brought in the most leads, 5 of the 12. Your Family's Safety brought them in at the lowest cost, $21.75 each.
